Subject: Anticipated sample time for residences w/ splits

When scheduling future appointments (where splitting w/ Cabot and PADEP) we expect the appointment to take a MINIMUM of 5 HOURS. Please note that this is based on our experience w/ yesterday and today which included a 15 min and 25 min purge of each well, respectively. Also - please note that the teams are working very well together - I don't see an opportunity to shorten the sampling time.

Hope this is useful information.

Thanks - Kelley
